# Success Pillars

## Team

Is our strongest pillar.

Team knowledge diversity makes us able to exceed your needs and go with you up to the next expectation level.

Our team is composed from engineers, technicians, procurement, logistics and admins; all are part of one great gearbox that shifts you up

### All services under one roof

As a multi-discipline company, you can get all what you need under one roof free from the works conflicts, clashes

## Experience

The second pillar is our team experience which exceeds 25 years in the Egyptian market.

All what you need from just replacing a light bulb to renovating and rehabilitating your building; You got it

The diversity of our team is as in the experience from portfolio project manager, senior procurement officer, senior staffing & workforce provision officer to experience technician and labor.

We are experienced in:

- Architectural and civil works
- Electrical works
- MEP works.
- HVAC
- Special access and ladders

## Innovative ideas

Good integrated team with long experience will lead to our third pillar which is the ideas

As per our belief, the client is not our customer but our successful partner so you will receive cost effective solutions.

Depending on our team's long experience and exposures inside Egypt and overseas; you will be provided with innovative ideas that will not only fulfill your dreams and needs; but we will go together to the next level beyond your expectations.
